HERCULES PRIME

PRODUCT CODE: TH 460

 weight: up to 80 kg
height: 130 - 180 cm

BELT GUIDE

The 3-point safety belt can be used either on the right or left side, the seat can be fastened quickly and easily.

LATERAL TRUNK SUPPORTS

Supports the upper body as an individually adjustable accessory.

SHOULDER WIDTH

Slim and broad users with a shoulder width of 42 to 51 cm / 16.5 to 20.1" sit well supported at all times.

BACKREST HEIGHT

With the infinitely variable height adjustment of the backrest, it is possible to adapt to the user's growth at any time. The head is supported in an optimal position.

5-POINT HARNESS

Soft shoulder pads provide additional support and a good sitting position during the ride – the correct strap length is quickly adjusted on the two buckles.

BACK ANGLE

Can be easily adjusted to the backrest – no tools required.

SEAT DEPTH

Infinitely adjustable, provides individual adaptation to the growth of the user.

RECOMMENDED ACCESSORIES

TH 419 - SEATFIX ADAPTER

TH 423 - CHEST CLIP

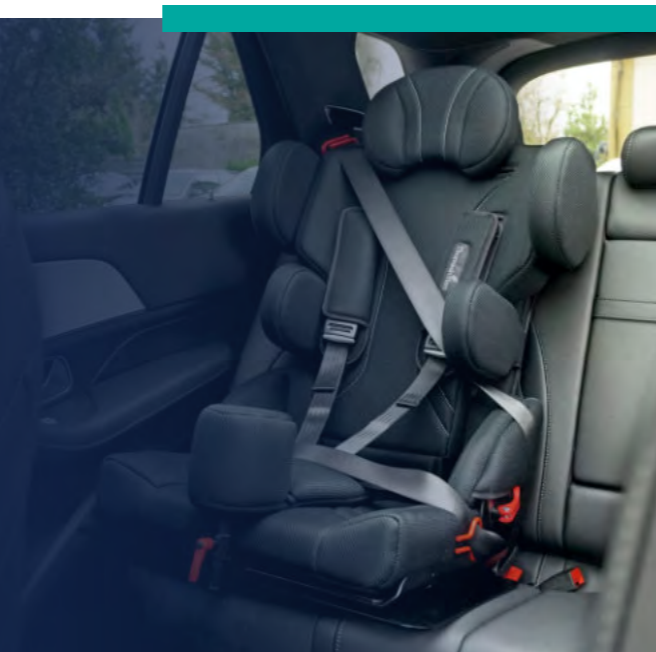

EXPLANATIONS

- 1 pre-mounted by the manufacturer
- 2 required choice of one of the options
- cannot be used in combination

HERCULES PRIME

Hercules Prime has its great performance when rehab car seats have become too small or more support is needed when sitting in the car. It is the best choice when a strong solution is needed for children, young people and adults with physical and neurological disabilities – so that they are always safe in the car. As a modular positioning seat that grows with the user, it offers the familiar functions of a rehab car seat and can be very individually adapted with a large selection of accessories that grow with the user.

When more support for the head and upper body is needed, a simple belt system in the car is not enough. It guarantees a good and safe sitting position on every journey.

COMMANDER

The Commander masters every challenge. As a special seat for special requirements and positioning, it is ideally suited for highly individual supply solutions. Children are supported wherever they need support and protection. Especially recommended for children with little upper body control - the fixed lateral trunk supports have proven themselves over many years of use in rehab strollers. A huge selection of accessories and easy handling make the adjustment perfect.

TECHNICAL SPECIFICATIONS

Seat depth	34 cm / 13.4"	Back height	55 - 75 cm / 21.7 - 29.5"
Seat width - front, back	33,5 cm / 13.2", 28,5 cm / 11.2"	Overall dimensions	55 x 65 x 45 cm (21.7 x 25.6 x 17.7")

CO-PILOT

PRODUCT CODE: TH 660 - 662

UPHOLSTERY

Cozy upholstery for sweat-free seating comfort. The breathable cover can be completely removed and washed at 40° C.

SHOULDER HEIGHT

The padded belt grows with the child: 3-fold height adjustment possible.

MARKINGS

The current seating position can be quickly read off the markings: blue: rear-facing, red: 3 positions forward-facing.

ADJUSTMENT OF POSITION

The central adjuster located in front of the car seat enables quick and easy adjustment.

COLOR OPTIONS

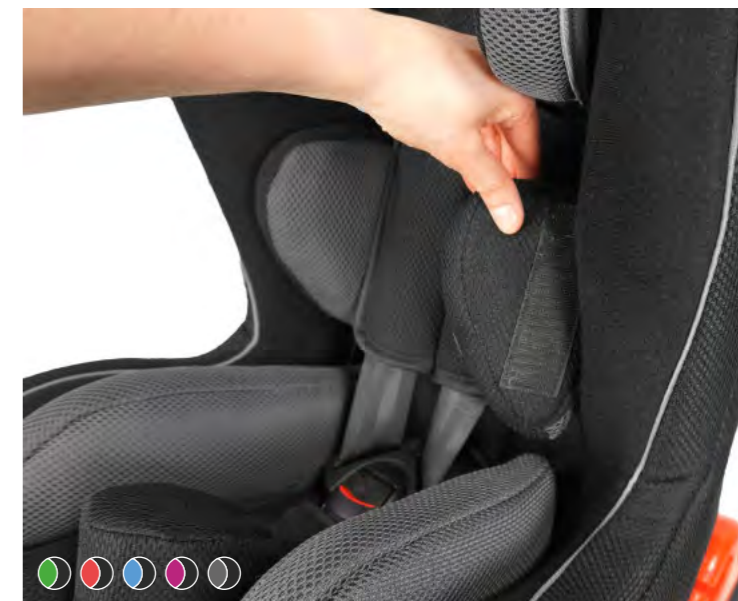

REHAB EQUIPMENT

Standard equipment includes:

- Abduction block
- Hip supports
- Head cushion

RECOMMENDED ACCESSORIES

TH 684 - LATERAL TRUNK PADS (FOAM CORE)

TH 814 - CAR SEAT PROTECTION MAT WITH BACK

CO-PILOT

With the lightest rear facing rehab car seat (up to 10 kg / 22 lb body weight), everyday handling becomes very simple. When your child is bigger (from 9 kg / 19.8 lb), simply turn the seat forward-facing. In the different seat positions the child can be active, rest or sleep – whatever the situation requires.

TECHNICAL SPECIFICATIONS

Seat depth	29.5 cm / 11.6"	Overall dimensions	42 x 62,5 x 43 cm (16.5 x 24.6 x 16.9")
Seat width - front, back	23.5 cm / 9.3", 20 cm / 7.9"		
Back height	51 cm / 20.1"	Weight of the seat	approx. 5 kg
