Silos and other products for the farmers

BIN Sp. z o.o. is a company founded in 1990. For over 30 years of activity we have produced over 70000 silos with a total capacity of over 6 million tons. Our silos successfully serve on the farms of Polish and European farmers.

Silos and other products for the farmers

Our location in the center of Poland allows us to offer you the perfect service.

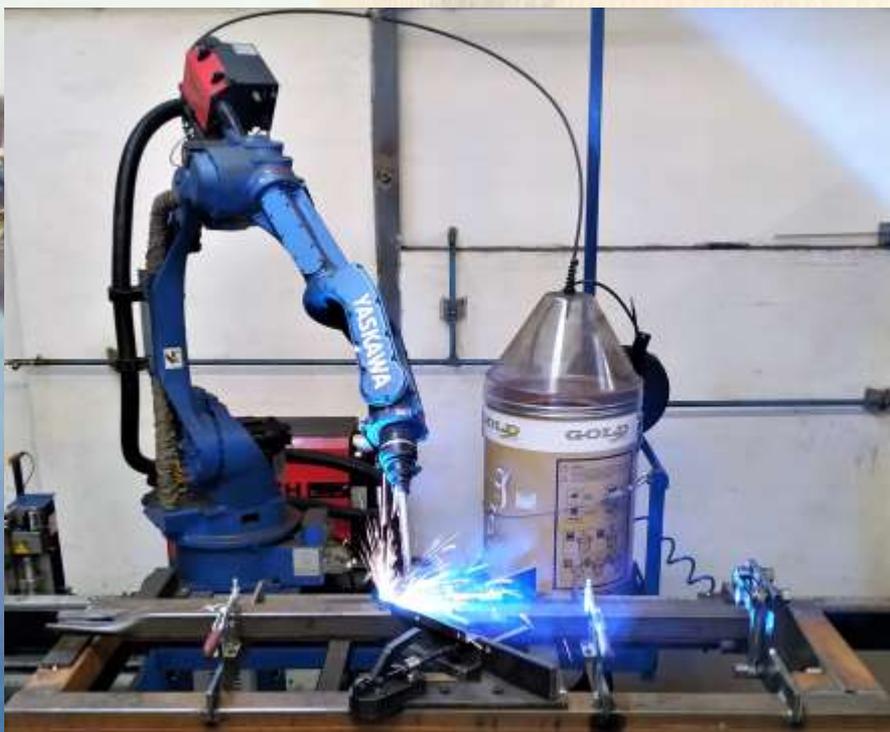

Silos and other products for the farmers

BIN Sp. z o.o. is the Polish manufacturer of high-quality silos designed for grain storage. Nowadays our company produces not only modern silos, but also other machinery and devices for farmers. BIN was founded in 1990. During more than thirty years of our activity, we have sold thousands of steel silos with a total capacity of several million tons, that is why for most farmers the word BIN is synonymous with a container for grain storage. Thanks to our innovative products, we gave the farmers possibility of grain storage on their own farms. We are active not only in Poland but also on many export markets. We are pleased that our products will contribute your success. We kindly invite you to the cooperation.

Silos and other products for the farmers

Our factory in Aleksandrów Kujawski is able to meet the highest quality expectations. Our company possess the certificate confirming the implementation of the factory production control system.
