WE DESIGN AND BUILD IMMERSIVE INSTALLATIONS

Concept Design | Technical Production | AV Technology

We're experts in creating immersive and unforgettable experiences that leave a lasting impact. From innovative design to cutting-edge audio-visual solutions, we've got everything you need to build immersive attraction.

With over 30 years of experience working with global brands, artists, and designers, we've established ourselves as a trusted partner for bold and ambitious productions around the world.

About us

25 years of experience and thousands of successfully executed productions, broadcasts, live entertainment, and AV installations

15 years in TV and film production: The Voice, Dancing with the Stars, Superstar, and many others

8+ years in gaming/esports - world's largest gaming events in Europe, China, US, India

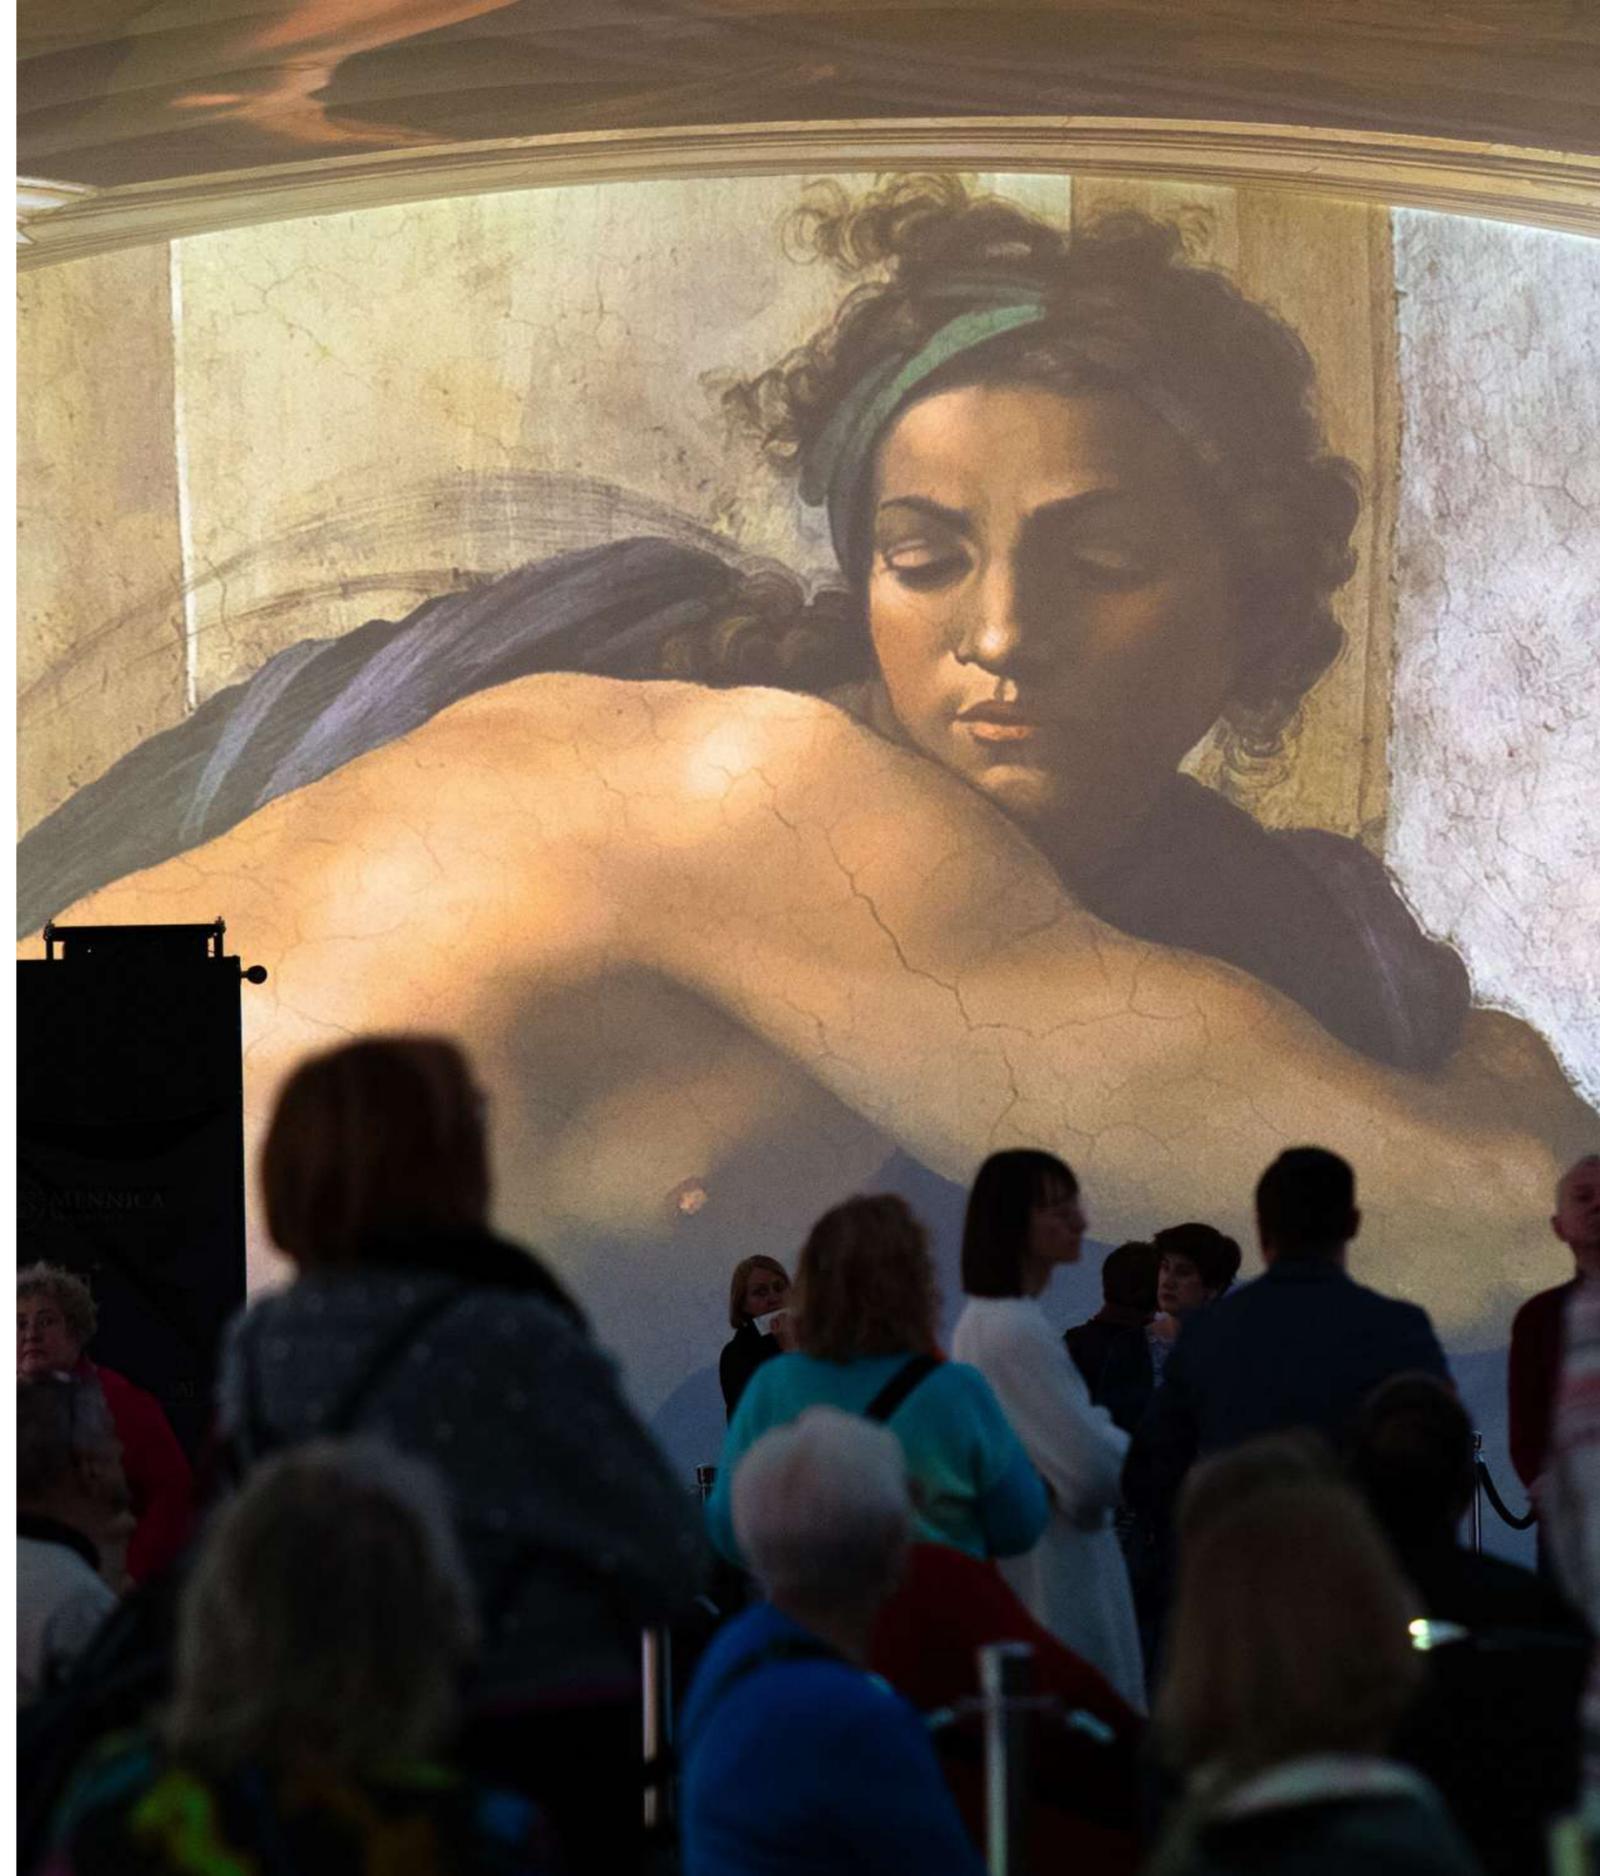

6+ years in booth building, successfully executed projects in Europe and MENA

Immersive experience

ARAM has expertise in designing, planning, and building complete systems for immersive spaces.

We manage the entire creative journey, from concept development to final production.

Our comprehensive service allows you to create a whole unique immersive space with 360-degree projections within a few weeks.

Sistine Chapel. Legacy.
