ABOUT COMPANY

OUR STORY

Our history began in 2009 with the introduction of the first line of VISEE wipers to the market. Since then, we have been continuously growing, becoming experts in this industry. Following the needs of our customers, we have been offering VOGO brand car mats and accessories since 2018.

EXPERIENCED SUPPLIER

We are an established manufacturer and supplier of innovative automotive accessories to global markets in the elastomer and plastics processing industry. Our development department is based on qualified and experienced engineers in the fields of design and material processing. Using the latest, highly advanced technologies, the development research on our products are being conducted continuously

MultiSet

Discover the revolution in the world of automotive wipers with MultiSet – flat VISEE® wipers with innovative SmartClick adapters!

By choosing MultiSet wipers, you have a choice of 17 SmartClick adapter sets fitting 21 types of mounts and a wide range of lengths from 350 to 800 mm (14"-32"). You gain not only the assurance of excellent visibility in all weather conditions but also comfort and speed of installation thanks to the simple SmartClick system.

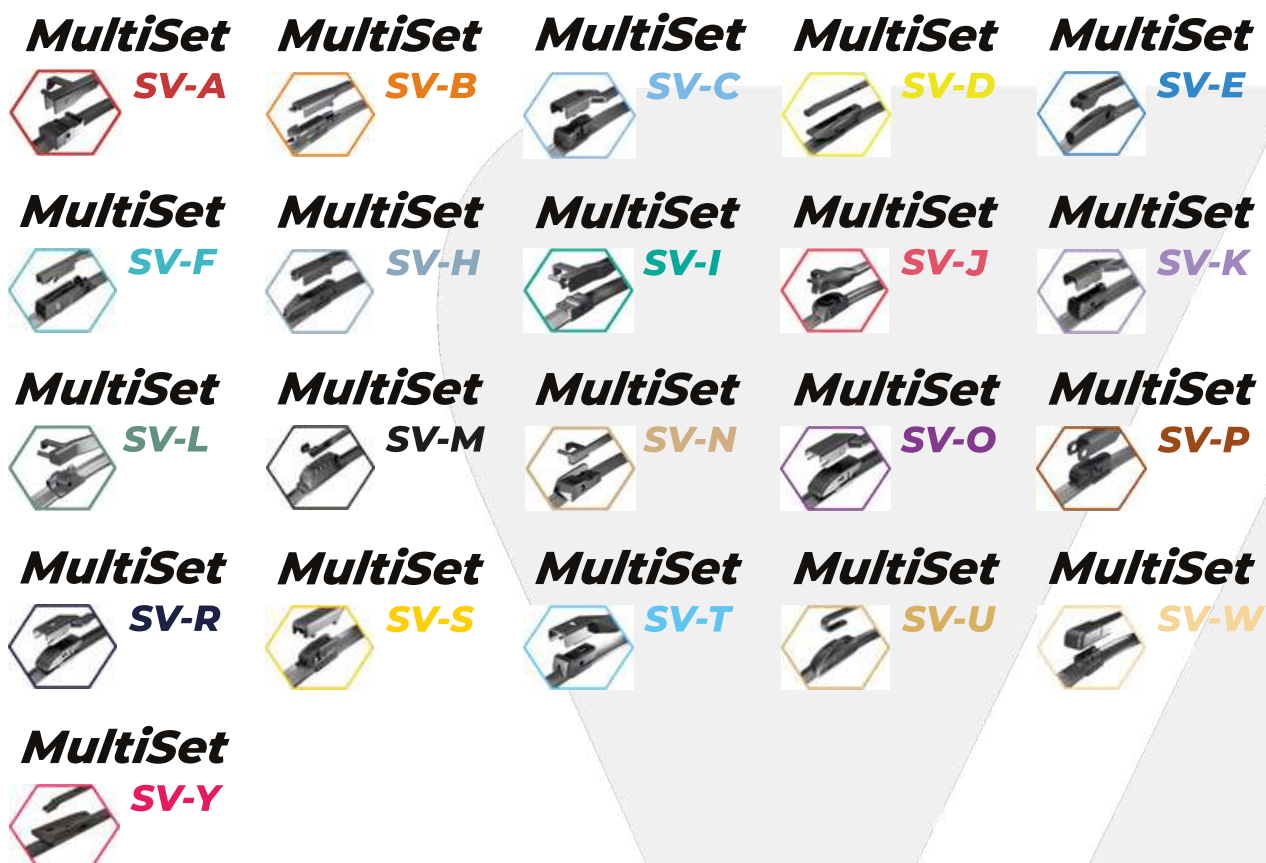

Ensure not only your safety but also style and elegance. Our wipers are designed for demanding drivers who value quality, convenience, and performance.

 **Available sizes:**
350mm - 800mm

Available Mounts:

A wide range of available mounts.

AQUATEC

AQUATEC – is the premium line of "flat" VISEE® wipers created for the most demanding users. This series of wipers is characterized by a compact design, dynamic styling, and top-quality materials used in production.

The wiper blade is vulcanized from high-grade rubber enriched with additives that give it exceptional resistance to aging due to UV radiation, high stability across a wide range of temperatures, and particular resistance to wear through friction.

Available sizes:

350mm - 750mm

Available Mounts:

A wide range of available mounts.

SV-U

STANDARD

STANDARD – is the VISEE® wiper line characterized by a frameless design with a centrally placed spoiler. The VISEE® Standard wipers are intended for cars with U-type arms (hook mount) with traditionally placed arms as well as for cars with opposing placed arms.

Only high-quality materials are used in the production of these wipers, allowing for long and trouble-free operation on the car's windshield.

Available sizes:

350mm - 750mm

Features of STANDARD windshield wipers

- Quiet operation during direction changes
- Metal mounting of the wiper to the arm
- Even wear of the blade along its entire length
- Use in cars with opposing and traditional wiper arms
- Use of a very high-quality blade

Available Mounts:

MOTOVISION Sp. z o.o. UL. W. GRABSKIEGO 8
75-209 KOSZALIN
